Title: Need to set up an IIT at Gujarat.

SHRIMATI JAYABEN B. THAKKAR (VADODARA): Sir, I am raising a very important matter regarding setting up of Indian Institutes of Technology. In the year 2003, it was declared by the then Prime Minister as also the Minister of Human Resource Development to set up five Indian Institutes of Technology in five States including Gujarat. I am sorry to state that no action seems to have been taken in the matter so far.

I would, therefore, urge upon the Government to take necessary action at the earliest in the matter.
